

## Certificate of Analysis

### Product Information:

|                           |                                |
|---------------------------|--------------------------------|
| <b>Product Code</b>       | ECORPQUIN                      |
| <b>Description</b>        | 263 mV @ 25 deg C ORP Solution |
| <b>Batch Number</b>       | S353/01                        |
| <b>Manufacturing Date</b> | 30-Aug-2013                    |
| <b>Expiration Date</b>    | 30-Aug-2016                    |

### Actual Analysis

|                     |                         |                |
|---------------------|-------------------------|----------------|
| <b>Measurement</b>  | <b>Acceptance Range</b> | <b>Results</b> |
| Mean mV (@25 deg C) | 263 mV                  | Pass           |

### Method of Standardization

This solution value is recorded using a mV meter that is calibrated by NIST traceable standard.
