The Art of Measurement

VIBRATION METER

Model: VT-8204

1. FEATURES

Vibration function :

- Applications for industrial vibration monitoring: All industrial machinery vibrates. The level of vibration is a useful guide to machine condition. Poor balance, misalignment & looseness of the structure will cause the vibration level increase, it is a sure sign that the maintenance is needed.
- Acceleration range : 200 m/s^2. Velocity range : 200 mm/s.
- Displacement (p-p) range : 2 mm.
- Metric and imperial display unit .
- RMS measurement for Acceleration and Velocity.
- Peak to peak measurement for Displacement.
- Peak function for Acceleration and Velocity.
- Max. hold function for Acceleration (peak), Velocity (peak) and Displacement (peak to peak).
- Frequency range 10 Hz 1 kHz, sensitivity relative meet ISO 2954.
- Zero function, executed by front buttons.
- Data logger function with flexible sampling time selection, can save max. 1000-point data into the memory circuit.
- Data hold button to freeze the desired reading.
- Memory function to record maximum and minimum reading of RMS value (Acc., Vel.) or Displacement (p-p).
- Auto shut off saves battery life.
- Professional vibration meter supply with separate vibration sensor & magnetic base, full set.

Tachometer (photo, contact) function :

- Laser light detecting source, long measuring range up to 1.5 meters, it is useful in the RPM measurement application where the machine would be a risk to the operator or close access is difficult or not possible.
- The best Tachometer in the world. 2 in 1, one instrument combine Photo Tachometer & Contact Tachometer.
- Wide measuring range from 0.5 to 100,000 RPM, 0.1 RPM resolution for the measured value < 1000 RPM.
- Microprocessor based circuit, crystal time base, high precision with 0.05% accuracy.
- Memory with recall function, the last value, max., value, min. value will be stored into the memory automatically.
- Patent patented.

General function :

- Super large LCD display.
- No contact infrared temperature measurement via optional IR temp. probe.
- RS 232 computer interface.
- Optional data acquisition software and data logger software.
- Microcomputer circuit, high performance.
- Built-in low battery indicator.
- Heavy duty & compact housing case.
- Complete set with the hard carrying case.
