

## WATERPROOF THERMOMETER PT-411

- Waterproof thermometer, enables accurate temperature measurements.
- Large easy to read LCD display enables simultaneous readout of the measuring function and temperature value.
- Replaceable temperature sensors.
- Depending on the requirements different kinds of sensor handle available.
- The probes are made of stainless steel pipes, 3 mm in diameter.
- The end of the probe may be flat or sharp.
- Probes are offered with silicon cables resistant up to 250 °C or silicone in protective steel braid cables.
- The probe may be additionally calibrated by the user, by entering digital parameters of the probe.
- „HOLD” function freezes the result on the display.
- The meter is powered with a battery or power adapter what enables work in the field or long-lasting measurements in the laboratory
- Automatic switch off function protects the battery against discharging.
- Long-lasting work on 1 battery.
- 24 months of warranty for the meter.

<b>Range</b>	-70.00 ÷ 400.00 °C	
<b>Resolution</b>	In range -70 ÷ 199.9 °C = 0.1, above: 1,0 °C	
<b>Accuracy depending on range:</b>	<b>In range</b>	<b>Accuracy</b>
	-70 ÷ 0 °C	±0.9 °C
	0 ÷ 100 °C	<b>±0.3 °C</b>
	100 ÷ 199.9 °C	±1.5 °C
	200 ÷ 400 °C	±3.0 °C
<b>Power</b>	Battery 9V, power adapter 12V	
<b>Weight / Dimensions (mm)</b>	180 g / L = 149, W = 82, H = 22
