

# RUSTYNO

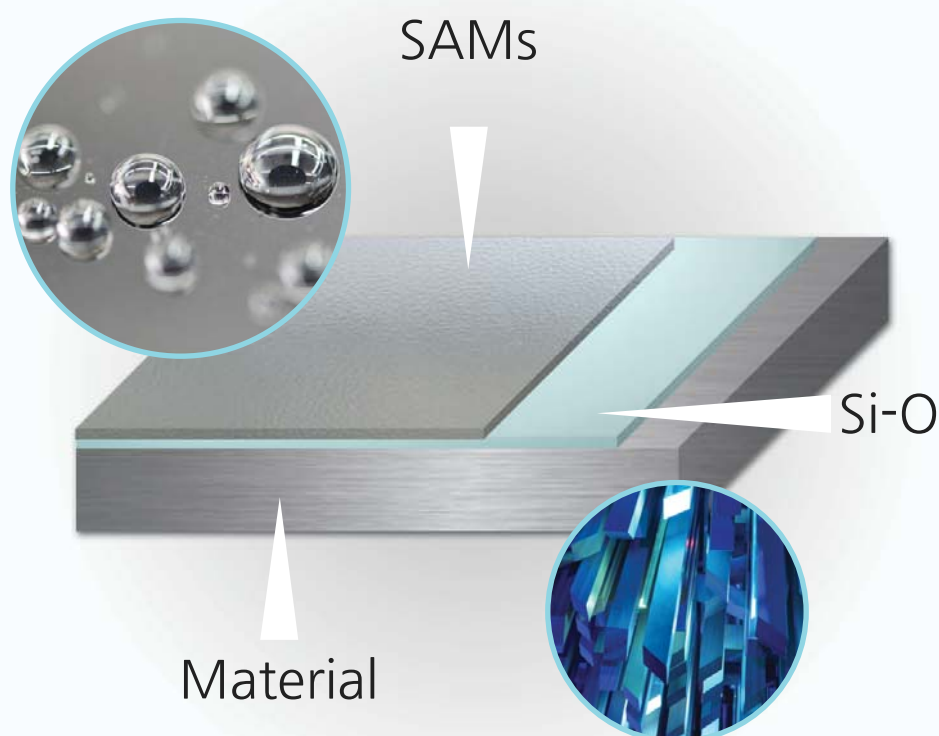

CORROSION INHIBITOR

# RustyNO's Mechanism

## Eco Friendly Water Soluble Corrosion Inhibitor

1. RustyNo can apply for the various material and it protect them by characteristic Network structure of Glass Coating
2. Self-Assembly Molecular (SAMs) which as it's own self-cleaning and water-repellent is applied to the surface and it protect the surface from the pollutant or any oxidative factors.

## The Most Benefit of RustyNo

Rusty No is only one water soluble corrosion inhibitor which has Green Certification by Korean Government and it contained organic compounds. RustyNo is No Hazardous, No Heavy Metal, Non Toxic Material, No Flammable RustyNo is Certified by International Research and Institutions.

Competitons	Comparison	RUSTYNO
Organic Binder	Material	Si
Detected	Volatile organic compound	No detected
Detected	Heavy metal / toxic	No detected
Yes	Flammable	Non

# What's Green Certificate?

Green Certificate is the Korean government Authentication Technology which considered Energy Recycling, Green Gas reduction technology, Eco-Friendly products.

## Cert

- Registered Safety precaution
- Green Certification
- RUSTYNO Trademark right
- Certificate of patent
- Registered as supplier to N2B
- ISO 9001/14001
- Registered as manufacturer
- Selected as Clean factory
- Certifavte by KOITA
- Certificate as Venture company

## Devl

### \* Development list for major company

- Doo-San Heavy Industry
- Doo-San Infracore
- Dong-Bu CNI
- LG Twin Tower
- AJu Besteel
- Sam-Jung Industry

## R&D

- Academic-Industrial collaborative technology R&D selected
- Selected the growing technology R&D project by SMBA
- Selected the strategy of industrial technology support project
- Selected the community-based R&D project by SMBA
- Selected InoBiz innovative technology R&D project by SMBA

## Cop

- Sustainable energy and environmental convergence by District office
- Selected the technology R&D cooperation with POMIA
- Selected the technology R&D cooperation with POSTECH
- Cooperation agreement with Han-Dong Univ
- Cooperation agreement with Kyuon-Buk Univ

# RUSTYNO MGP QUARTZ SHIELD

**M**ulti**G**lossy**P**rotect  
ALL-IN-ONE Coat !

**MGP**Only **O N E**  
Protect yours

MGP Glass Coating is protect  
the surface of Plastic molding,  
Wheel, and coating !

Rubber, sheet, Plastic board  
And keep it's own color !

## **|** Most Benefit

Water Repellent

Minimized water spot

Easy to clean the surface

RustyNo MGP Glass Coating is maximized the surface tension and it makes it's own water-repellent coating on the surface. The characteristic of water-repellent is going to protect the surface from any dust and pollutants. It's own mineral blended MGP can make a minimized water spot on the surface. The MGP Glass coating is going to harder and harder if you spray MGP on surface regularly.

# RUSTYNO RC QUARTZ SHIELD

RustCare

Eco Friendly Rust Remover !

## Protect Base Metal Remove Rust only

Keep clean from the rust  
Keep safe from the rust

From household effect to  
Industrial material  
And keep it's own base !

## Most Benefit

Chemical reaction

Clean the concrete surface

Every rust on Steel

RustyNo RC is a colorless transparent water-soluble Rust remover and it is not a in **organic hazadous product**. It is not contained Sulfuric Acid, Hydrochloric Acid, Nitric Acid and Phosphoric Acid. It ca be remove the rust from the surface without any harm on Base metal. User can see the reducing process in pulple color.

\* We strongly recomment to use **RUSTYNO FM, NFM or RCL** after rust remove by RC.

# RUSTYNO FM/NFM QUARTZ SHIELD

Ferrous Metals  
Non-Ferrous Metals

## No worry for Rust Be Happy with US

Keep safe from the rust  
Keep save from maintenance

From household effect to Industrial  
Material such as sink, Guardrail  
Engine room for car and etc !

## Most Benefit

Eco friendly, no toxic

Glass coating effect

Certified test result

Rusty No FM and NFM is neither oil based products nor hazardous material. It is a Eco Friendly Water soluble corrosion infibitor which can make the Glass coating on surface and protect from any other oxidative factors and pollutants. It can keep clean surface from the corrosion for a long period of time if user spray RustyNo FM and NFM frequently on the surface.

\* We strongly recommend to use RUSTYNO FM, NFM for suitable material.

# RUSTYNO RCL QUARTZ SHIELD

RustCareLubricant  
Water soluble Lubricant !

It makes smooth  
Ever you made

No oil based  
No dust on it

For the locks, joint parts,  
Fitness equipments, Furnitures.  
Motor vehicles, Tool equipment !

## Most Benefit

Silicon based

Lubricant without dust

Reducing noise

RustyNo RCL is 100 % Eco Friendly Water Soluble Lubricant which based on LSR Silicon. No organic binder and flammable materials inside of RustyNo RCL. RustyNo RCL can protect the surface from the corrosion and it makes a lubrication on the joint parts without any stickiness.

[www.rustyno.net](http://www.rustyno.net)

We are green technology company put our effort to Green Earth  
We are considering the environment protection with Eco friendly water  
soluble corrosion inhibitor RustyNo. Our Eco Friendly RustyNo MGP and  
RustyNo RC, RustyNo RCL and RustyNo corrosion inhibitor are also  
manufactured by our business philosophy
