

Element ELT6001 precision balance

Standard features.

- Stainless steel weighing pan
- Large, white backlit LCD
- Intuitive operation: 6 keys with positive click action and menu with English text abbreviations
- Built-in application programs: counting, totaling, weighing in %, readout lock-in mode, easy below-balance density determination
- One-key calibration function
- Four digital filter levels for adapting the balance to conditions at the place of use
- Mechanical overload protection
- Rugged anti-theft locking device built into the housing
- Power options: batteries (eight 1.5V Mignon AA batteries) or line current (AC adapter included as part of the equipment supplied)
- Connectivity for plug-in data interface adapters (YADAP-RS, YADAP-USB)

Readability	0.1 g
Weighing capacity	6,000 g
Pan size	140x127 mm / 5.5x5 in
Response time (avg.)	2 s
Housing (WxDxH)	188x264x79 mm / 7.4x10.4x3.1 in
Repeatability	$\leq \pm 0.1$ g
Linearity	$\leq \pm 0.2$ g

USB and RS-232C
interface adapter

Key accessories	Order no.
RS-232C interface adapter with cable (1 m)	YADAP-RS
USB interface adapter with cable (1 m)	YADAP-USB
Data printer with date, time and statistics functions	YDP03-OCE
SartoConnect data transfer software with RS-232C standard cable (1.5 m)	YSC01L
Lock-down capability	LC-1
