

Specifications of Suntex 8-244-10 conductivity sensor

- Order No.:8-244-10
- Type: 4-electrode sensor
- Range: 20.00 μ S~500.0mS
- Working temp.: 0~70° C
- Pressure range at 25°C(77°F): 0~7 bar
- Electrode Material: Graphite
- Body Material: Epoxy resin
- Temperature sensor: NTC 30K
- Cell constant: 0.3 cm⁻¹
- Process connection: 1/2" NPT
- Insertion length: 82mm
- Min. insertion length: 35mm
- Max. length: 142mm
- Fixed cable length: 10m
