

#### 4. First-aid measures

If reagents or test solutions;

Enter in eyes: Immediately rinse thoroughly  
Contact with skin: Immediately wash out contaminated site with plenty of water.  
Enter into mouth: Immediately rinse mouth with plenty of water.

If ingested or in case any symptoms appear after above measures, immediately get medical advice or treatment.

#### 5. Fire-fighting measures

Extinguishing methods: Cut off ignition sources and extinct by a suitable media.  
Suitable extinguishing media: Water (mist), powder, carbon dioxide, dry sand.

#### 6. Accidental release measures

In case of outdoor use: avoid spill of reagents and waste solutions.

In case of indoor use: if spilled on a table or floor, wipe off immediately spilled reagents and dispose of them.

#### 7. Handling and storage

Handling: Care should be made so that reagents will not contact with eyes or skin, and avoid ingestion.  
Especially for outdoor use, ensure to bring back reagents, waste solutions after the measurement, and the used containers.

Storage: Avoid direct sunlight and store in a well-ventilated cool, dry, and dark place.

#### 8. Exposure controls and personal protection

Administrative control level

Working environment standard: Not established

Occupational exposure limits

Japan Society for Occupational health: Not established

ACGIH (TLVs): Not established

OSHA (PEL): Not established

Protective equipment: Recommended to wear protective glasses and gloves

#### 9. Physical and chemical properties

Physical state: Tube containing powder reagent 1.1g x40 tubes/kit (5 tubes per aluminum laminated packaging)

Color: light yellow (powder), semi-transparent (polyethylene tube)

Odor: No odor

pH: 7

Melting point, boiling point, flash point, ignition point, lower explosion limit, vapor pressure, density, relative density, solubility, Pow, kinetic viscosity: not available as a mixture

#### 10. Stability and reactivity

Avoid leaving in a place where high temperature, humid or under direct sunlight. Stable under normal use conditions and no dangerous reactions under specific conditions are expected. No information on hazardous decomposition product is available.

## 11. Toxicological information

No data on mixture is available. Data on each substance are shown.

Peroxidase:

No toxicological information is available.

4-Aminoantipyrine:

Acute toxicity:

Oral: Rat LD<sub>50</sub> 1,700 mg/kg

Skin corrosion/ irritation: Since irritation to the skin, it was classified into category 2.

Serious eye damage/ eye irritation: Since irritation to the eye, it was classified into category 2B.

Other data: Not available

Polyethylene:

Acute toxicity:

Oral: Rat LD<sub>50</sub> > 7,950 mg/kg (used 7,950 mg/kg for the calculation of ATEmix below)

Carcinogenicity: IARC Group 3 (not classifiable as to carcinogenicity to humans).

Other data: Not available

GHS classifications as a mixture are shown below.

[Acute toxicity (oral)]

Not classified based on application of the additive equation of LD<sub>50</sub> (Rat) values of each ingredient.

[Acute toxicity (dermal)], [Skin corrosion/ irritation], [Serious eye damage/ eye irritation], [Respiratory or skin sensitization], [Germ cell mutagenicity], [Carcinogenicity], [Reproductive toxicity], [Specific target organ toxicity (single exposure)], [Specific target organ toxicity (repeated exposure)], [Aspiration hazard]  
Classification is not possible due to not enough data available.

## 12. Ecological information

No data on mixture is available. Data on each substance are shown.

Peroxidase, 4-Aminoantipyrine, Polyethylene: No eco-toxicological information available.

GHS classifications as a mixture are shown below.

[Hazardous to the aquatic environment (Acute)], [Hazardous to the aquatic environment (Long-term)]

Classification is not possible due to not enough data available.

[Harmful effects on the ozone layer]:

Classification is not possible because each of the substances is not described in Annex to Montreal Protocol.

## 13. Disposal considerations

Always dispose of in accordance with local regulations.

## 14. Transport information

In addition to precautionary measures regarding the handling and the storage, avoid rough handling that may cause damaging the containers. It is recommended to ship by air because of the storage under high temperature for long period of time may lead to deterioration.

UN classification and number: Not applicable

Civil Aeronautics Act: Not applicable

Poisonous and Deleterious Substances Control Act: Not applicable

Fire Service Act: Not applicable

Total weight of the product: ca.130 g/kit

## 15. Regulatory information

PRTR Act: Not applicable  
Industrial Safety and Health Act: Not applicable

## 16. Other information
