

Safety Data Sheet

Reference No. 1065

Issue: 1st July 2010
Revision: 1st September 2015

1. Chemical product and company identification

Product name PACKTEST Molybdenum [Standard Type] Model WAK-Mo

Company name KYORITSU CHEMICAL-CHECK Lab., Corp.

Address 37-11, Den-enchofu 5-chome, Ota-ku, Tokyo 145-0071, Japan

Tel +81-3-3721-9207

Fax +81-3-3721-0666

Person in charge Keita MURAI

Recommended uses and restrictions Reagent for water quality measurement

2. Hazards identification

Most important hazards information: Irritation

Its effects: Harmful if inhaled or ingested. Contact with eyes, skin and mucous causes irritation.
Long-term exposure may cause discomfort feeling, nausea or headache.

[GHS Classification]

Physical hazards: Classification not possible (no data for GHS classification available)

Health hazards: Not classified or classification not possible (no data for GHS classification available)

Environmental hazards: Classification not possible (no data for GHS classification available)

[GHS labeling elements]

None

[Signal word]

None

[Hazard statements]

None

[Precautionary statements]

Keep out of reach of children and store in the cool, dry, and dark place.

Carefully read instructions before use and do not use for other purposes.

Wear personal protective equipment if necessary.

Do not inhale reagents.

Wash contaminated clothing.

Wash hands thoroughly before and after handling.

Avoid release to the environment.

3. Composition/ information on ingredients

Discrimination of single substance or mixture: Mixture

Reagent name	K-1 reagent			
Chemical name	Protocatechuic acid (3,4-Dihydroxybenzoic acid)	Buffering agent	Others	Polyethylene
Content	< 1%	< 6%	< 3%	> 90%
Chemical formula	(OH) ₂ C ₆ H ₃ COOH	-	-	(C ₂ H ₄) _n
METI No. (reference number under CSCL in Japan)	3-1616	-	-	6-1
CAS No.	99-50-3	-	-	9002-88-4

4. First-aid measures

If reagents or test solutions;

- Enter in eyes: Immediately rinse thoroughly.
- Contact with skin: Immediately wash out contaminated site with plenty of water.
- Enter into mouth: Immediately rinse mouth with plenty of water.

If ingested or in case any symptoms appear after above measures, immediately get medical advice or treatment.

5. Fire-fighting measures

- Extinguishing methods: Cut off ignition sources and extinct by a suitable media.
- Suitable extinguishing media: Water (mist), powder, carbon dioxide, dry sand.

6. Accidental release measures

In case of outdoor use: avoid spill of reagent or waste solution.

In case of indoor use: if spilled on a table or floor, wipe off immediately spilled reagent and dispose of them.

7. Handling and storage

Handling: Avoid contact of reagents with your skin or eyes, and inhalation of those especially powder in tube.

For outdoor use, ensure to bring back reagents, waste solutions after the measurement and used containers.

Storage: Avoid direct sunlight and store in a well-ventilated, cool, dry and dark place.

8. Exposure controls and personal protection

Administrative control level:

Working environment standard Not established

Occupational exposure limits:

Japan Society for Occupational health Not established
ACGIH (TLVs) Not established
OSHA (PEL) Not established

Protective equipment: Recommend to wear protective glasses and gloves.

9. Physical and chemical properties

Physical state: K-1: Tube containing powder reagent 1.1 g x 50 tubes/kit (5 tubes per one aluminum laminated packaging)

Color: K-1: White-pale yellowish (powder), transparent (polyethylene tube)

Odor: K-1: No odor

pH: 7 (sample solution after addition of K-1 reagent)

Melting point, boiling point, flash point, ignition point, lower explosion limit, vapor pressure, density, relative density, solubility, P_{ow} , kinetic viscosity: not available as a mixture

10. Stability and reactivity

Avoid leaving in a place where high temperature, humid or under direct sunlight.

Stable under normal use conditions and no dangerous reactions under specific conditions are expected.

No information on hazardous decomposition product is available.

11. Toxicological information

No data on mixture is available. Data on each substance are shown.

Protocatechuic acid (3,4-Dihydroxybenzoic acid):

Acute toxicity: Oral-rat $TDL_0 > 800$ mg/kg (RTECS)

Intraperitoneal-mouse $LD_{50} = 250$ mg/kg (RTECS)

Transdermal-mouse $TDL_0 = 98.64$ μ g/kg (RTECS)

Polyethylene:

Acute toxicity: Oral-Rat $LD_{50} > 7,950$ mg/kg (used 7,950 mg/kg for the calculation of ATE_{mix} below)

Carcinogenicity: IARC Group 3 (not classifiable as to carcinogenicity to humans)

Other data: Not available

GHS classifications as a mixture are shown below.

[Acute toxicity (oral)]

Not classified based on application of the additive equation of LD_{50} values (rat and mouse) of each ingredient.

[Acute toxicity (dermal)], [Skin corrosion/ irritation], [Serious eye damage/ eye irritation], [Respiratory or skin sensitization], [Germ cell mutagenicity], [Carcinogenicity], [Reproductive toxicity], [Specific target organ toxicity (single exposure)], [Specific target organ toxicity (repeated exposure)], [Aspiration hazard]

Classifications are not possible because of data lack.

12. Ecological information

No data on mixture is available. Data on each substance are shown.

Protocatechuic acid (3,4-Dihydroxybenzoic acid): No eco-toxicological information available.

Polyethylene: No eco-toxicological information available.

GHS classifications as a mixture are shown below.

[Hazardous to the aquatic environment acute], [Hazardous to the aquatic environment chronic]:

Classifications are not possible because of data lack.

[Harmful effects on the ozone layer]:

Classification is not possible because each of the substances is not described in Annex to Montreal Protocol.

13. Disposal considerations

Always dispose of remaining waste and used containers in accordance with local regulations.

14. Transport information

In addition to precautionary measures regarding handling and storage, avoid rough handling so as not to break containers. Air transportation is recommended for long-distance haul, because under high temperature for long period may lead to deterioration.

UN classification and number:

Not applicable

Civil Aeronautics Act:

Not applicable

Poisonous and Deleterious Substances Control Act:

Not applicable

Fire Service Act:

Not applicable

Total weight of the product:

ca. 140 g/kit

15. Regulatory information

PRTR Act: Not applicable

Industrial Safety and Health Act: Not applicable
